Letter of Thanks

We the headmaster, members of staff and the school committee of Mtendere primary school would like to express our thanks and happiness for the renovation of our school and the furniture (desks) that you have made for our school. It is a great privilege to us to receive these help from you through Fr Boniface.

These furniture are a great relief to the entire school because previously we had too few of them and many of our students used to sit right on the floor!! However, with your assistance both staff and students are now comfortable in their classes.

The problem of desks is now solved. However the school still has some needs that are currently beyond our means to handle adequately. These are rehabilitation of dilapidating staff houses and electricity installation. If there is a possibility of assisting in this regard, we would be very grateful for it.

The entire school and school committee thank you once more and wish you good health and happiness so that you may continue with your good work. May God bless you.

Yours faithfully,

.....
Mr. L. S. Chipwayira (Headmaster)
